

# Shopping

No matter how long you plan to stay in our community, we hope you will take some time to check out the various places to shop. As Los Banos continues to grow, so does the selection of stores and services. Los Banos now boasts several shopping centers up and down the highways that run through our town as well as the heart of our city, Downtown Los Banos.

You will find a nice mix of major retailers as well as locally owned and operated businesses.

Anchoring each end of town are the major box stores. On the east end you will find a major grocery store, Food-4-Less. In this shopping center you will see fast food restaurants, along with beauty shops, a variety of retail stores, a tanning salon and health club.

Across the highway you will find Home Depot anchoring a shopping center that includes places to eat

and drink such as Jamba Juice and Chilis, in addition to clothing stores, a nail salon and a dental office.

As you continue down the highway you will find two other shopping centers at the intersection of Highway 152 and Highway 165. These centers currently have another large grocery store, Save-Mart, K-Mart, clothing stores, restaurants - both sit-down and fast food, furniture, nail salons, banking and Rite Aid.

Further down you will come across several smaller "strip mall" shopping centers. Each of these feature a selection of food, retail stores and many services. You'll find great donuts, liquor stores, automotive services and hotels and motels. Parking is often provided in front of the business and on side streets as needed. You will also see the local CHP office on Highway 152 should you need their services.
